

Website accessibility statement

We recognise the importance of providing a website that is accessible to all user groups, including those with a disability or impairment. Wherever possible, we have included simplified features to make our content available to anyone who is using assistive technology or might otherwise find the standard features difficult to use.

Help or feedback

We are committed to on-going accessibility improvements.

If you would like to give us some feedback, or are having difficulty accessing this website for any reason, please let us know and we will do our best to resolve the issue.

Accessibility features

We have included a number of features to improve usability and accessibility across all client device types.

[Menu and Home links

All pages have a link within the header and footer menu. Also each page has a home link to aid navigation in text-only browsers.]

[High Contrast

Using the button on the left of the screen the user is able to switch to a high contrast mode.]

[Links highlighted

Within High Contrast mode each page link is underlined.]

[Text or page resizing

You can generally change the font size or adjust the page zoom through your browser. To enable this feature on:

- a PC, hold down the **CTRL** key and press the **+** key to increase and the **—** key to decrease the font size
- a Mac, hold down the **COMMAND** key and press the **+** key to increase and the **—** key to decrease the font size

We have also enabled a quick text re-size feature, which is activated from the button on the left of the screen]
